WANTED TO SHARE AN INSPIRING AS WELL AS AN ASPIRING
MOMENT...

ON JULY 11TH AND 12TH DR. MARJORIE MAU, Professor of Native Hawaiian Health and Director of the Center for Native and Pacific Health Disparities Research at the J. A. Burns School of Medicine, University of Hawai‘i, has also served as the Medical Officer on the Hōkūle‘a, presented a lecture and discussion alongside Desmon Haumea, crew member of the Polynesian Voyaging Society and ‘Ohana Wa‘a. For those of us who have not been keeping up with her 40 year legacy, Hōkūle‘a (star of gladness) was conceived on a scientific inquiry — “How did the Polynesians discover and settle small islands in ten million square miles of ocean, geographically the largest "nation" on earth?”

THE POLYNESIAN VOYAGING SOCIETY was formed in 1973 by Dr. Ben Finney (the only surviving co-founder to date), Tommy Holmes (1945-1993), and Herb Kawainui Kāne (1928-2011). Two years later on March 8th 1975 a replica of a double hulled voyaging canoe, designed by Herb Kāne, was launched from a sacred place called Hakipu‘u – Kualoa in Kaneohe Bay, O‘ahu. This was one of many events marking an era of revitalization in language, art, chants, stories, and many other expressions of traditional culture.

HAWAIIANS HAD LOST THE ART of navigation and sought other cultures still practicing this traditional art form. Pius “Mau” Piailug from the island of Satawal (Micronesia) agreed to teach this skill despite his own community not wanting him to share this with outsiders. He realized this was a dying art form within his own community and it was more important to him for the art form to live on, rather than be lost forever if he took it to his grave. Dr. Mau was his physician in his final years before complications of diabetes ended his life.

BOTH THE LECTURE AND DISCUSSION touched on the above points in conjunction with identifying cultural trauma and cultural wounding (illegal overthrow, loss of land & ocean water access, and cumulative cultural historical trauma) as additional proposed health disparities affecting Native Hawaiian Health. These items and others are associated to increased risk of diabetes (Dr. Mau’s research) where incorporating political & economical sovereignty, active lifestyle & traditional foods, cultural genealogy, and cultural practices, customs & beliefs would be the contrary, thus helping to decrease the risk of onset of diabetes.

40 YEARS LATER, HŌKŪLE‘A is continuing to aspire as well as inspire with a world tour, click on this link to see the path this “star of gladness” will take as she commences her next adventure.

THE WORLDWIDE VOYAGE has already begun with 250 men and women training by taking her island hopping to multiple spots around the state of Hawai‘i. This voyage began in Hawai‘i and will end in Hawai‘i in 2017 with 22 legs, 28 countries, 85 international ports, logging 45,000 nautical miles along the way. Mahalo nui for helping to keep her story alive! IMUA!!
Aloha All,
Mahalo to all the contributors in this newsletter—great and interesting information as usual!! Sounds like a super and successful time had at the Ho‘olaule’a. Sorry to have missed it. As you can see, I put a great picture of the front of the food booth showing the concept by Rudy—simply beautiful. Mahalo to Charlene Kazner and Hokunani Aichele for taking pictures at this event along with Leialoha McEwan sharing the one of the winning decorated booth on page 2. See Hokunani’s photograph talent—balloons and flower assortments below and on page 5. Many thanks to Lehua for her informative member profile—it is fascinating! It shows the importance in sharing information about our hard working members! So when you see the “bass player” at the Aha‘aina—you can say in person—good job on profile. Next month’s profile with be member, Charles Herring. Many of you know him as entrepreneur—always for years has booth at the Ho‘olaulea and has supported our club by donating gifts for the raffle. He also has a halau in Henderson, NV and has traveled all over to teach hula. So stay tuned for that! Check out the beautiful flyer for our upcoming festival in September on page 8. A hui hou kakou, Maggie

**Continued Member Profile:** this journey I have been adopted several times by different tribes and had a naming ceremony led by the Chief of the Winnebago in Nebraska. I have danced in Powwows all over the world; well the US, Canada, England, and Brussels, and can make some of the best fry bread you ever tasted. I know how to bead in any direction, cure and tan hides for clothes, and flatten porcupine quills for embroidery. I am currently the Head Lady Singer for the California Hethushka and have retired my dancing moccasins for a seat behind the drum. Much of my spiritualism and how I see the world comes from the teachings of my Native American elders.

**AS I WAS GROWING UP,** I remember Dad playing Hawaiian records every Sunday. It was like a ritual in my house. Well, about 10 years ago or so, I heard there was going to be something called the E Hula Mau to be held at UCI and I attended. I sat in the audience and the most amazing feeling came over me, as though I had come home. I was almost shaking as I left the auditorium. As fate would have it, I was the MC for a children's festival in Anaheim a few weeks later and I met a Kumu, Judy Kalehua. She taught in Cypress and we got to talking. She was reforming her musicians and enlisted the help of Henry Kamae and, well, she needed a bass player. I spent two years under Henry’s tutelage, learning the songs, the language and beginning to understand my dad through my culture. Since Auntie Judy wanted live music at all of the practices and performances, I was with the halau a lot.

**I MET BJ, AND SEVERAL MEMBERS** of ‘Āinahau members at an Asian Pacific Islander Banquet. Kolohe's, an ukulele group I belonged to at the time, had been asked to perform and BJ needed someone to sing Hukilau. We got to talking and she suggested that I might want to become part of Aina Hau. Just two years later she sponsored me and when I did, I found a family that resonated within me on more levels than I could have imagined; the Aina Hau family. I am grateful every day for my association with our club, the learning, the experience and the continuing growth of my first heart, the one of my father, my Hawaiian heart.

---

**ALOHA, MY NAME IS ELLEN LEHUA SWOPE,** but most people in the club just know me as the bass player for the hula musicians. I have one daughter Amber Kahalelehua Tissandier and my hanai son, David, but that is another story.  

**I AM AN ARMY BRAT,** and have lived in many places in the world, both as a child and an adult. I get itchy feet sometimes. I finished my education late in life but I do have a Masters Degree in Teaching from UCI along with my Teaching certification. I retired from teaching a year ago June where I spent the few short years teaching in areas like South Central LA and Watts. My students taught me much more than I could ever have taught them.

**I WAS MARRIED TO THE** most wonderful man for 31 years who died way before his time, and now I am with another incredible guy, Mike Spatter. You all know him...he is the big one with the baritone voice. We have been together now for 8 years.

**I AM HAUPA HA’OLE.** My Dad is from the Big Island and he was raised in the area where the Botanical Gardens is now in Hilo. I remember listening to Dad talk story about his life as a boy.. During his teenage years, WWII was raging and he decided he needed to go and be a part of it. So he lied about how old he was and asked to be put in the Navy. But, as these things happen, he went into the Army and was shipped off to Germany. His first tour there was for three years. He stayed for a total of 6 years, learned the language and fell in love.

**I THINK THE STORY OF** how my mom and dad met, married, and lived their life together is what romance novels, the really good ones, are all about. She was a German girl, (well actually Austrian but Dad didn't know that at the time), coming home from a neighborhood festival with a 135 pound German Shepherd on a leash in postwar Germany; but that is another story.

**I LOVED MY MOTHER** with every fiber of my being although she left this life about two years ago. She taught me how to be a lady, what is important in life, and how to cook like a German. When mom and dad met, she was working for a courtier and was the most amazing seamstress. I can sew a little because of her.

**WELL, EVENTUALLY MOM** and dad were able to be married with the help of the Senator of Ohio (oh yes, that is another story) and they had four additional boys; Robert Kealoha, Richard Kahana, David Kehuku, and Lawrence Kuulani. All of our middle names are family related. We trace our Hawaiian Heritage from Samual Kahamookalani Kahana Kaohimaunu.

**I ALSO HAVE AN ADOPTED CULTURE** that has shaped who I am. Rather than thinking of my heart cut into three, I like to say that I have three hearts. One from my dad, one from my mom, and the other I acquired along the way through my relationships with Native Americans. I started on this journey when I was 16 and joined a Native Dance Troupe founded by the hereditary chief of the Santee Sioux, Paul Jones. Through
